Report Documentation Page				Form Approved OMB No. 0704-0188	
Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.					
1. REPORT DATE <b>MAR 2005</b>		2. REPORT TYPE		3. DATES COVERED <b>00-00-2005 to 00-00-2005</b>	
4. TITLE AND SUBTITLE <b>Large-Scale Creative Work</b>				5a. CONTRACT NUMBER	
				5b. GRANT NUMBER	
				5c. PROGRAM ELEMENT NUMBER	
6. AUTHOR(S)				5d. PROJECT NUMBER	
				5e. TASK NUMBER	
				5f. WORK UNIT NUMBER	
7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES) <b>Carnegie Mellon University,Software Engineering Institute,Pittsburgh,PA,15213</b>				8. PERFORMING ORGANIZATION REPORT NUMBER	
9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES)				10. SPONSOR/MONITOR'S ACRONYM(S)	
				11. SPONSOR/MONITOR'S REPORT NUMBER(S)	
12. DISTRIBUTION/AVAILABILITY STATEMENT <b>Approved for public release; distribution unlimited</b>					
13. SUPPLEMENTARY NOTES <b>17th Software Engineering Process Group (SEPG) 2005 conference, March 7-10, in Seattle, WA.</b>					
14. ABSTRACT					
15. SUBJECT TERMS					
16. SECURITY CLASSIFICATION OF:			17. LIMITATION OF ABSTRACT <b>Same as Report (SAR)</b>	18. NUMBER OF PAGES <b>22</b>	19a. NAME OF RESPONSIBLE PERSON
a. REPORT <b>unclassified</b>	b. ABSTRACT <b>unclassified</b>	c. THIS PAGE <b>unclassified</b>			

# Topics

What do

- the bureaucracy
- a nuclear submarine
- Star Wars

have in common?

# The Bureaucracy

## Bureaucracies

- handle routine work
- prevent recurring problems

Each bureaucratic staff has specialized rules.

Bureaucracies become complex and powerful.

# A War Story <sup>1</sup>

IBM: new line of computers

- hardware being delivered
- software schedules slipped three times
- director of software was fired
- we had no plans

## A War Story 2

IBM: new line of computers

- hardware being delivered
- software schedules slipped three times
- director of software was fired
- we had no plans

I got the job to lead the software group.

My software group had:

- 4,000 people
- 15 laboratories
- 6 countries

## A War Story <sup>3</sup>

Needed procedures:

- approved plans
- my approval

It worked:

Met all dates for 2\_ years

# The Review Bureaucracy <sup>1</sup>

Planning bureaucracy

Not a development process

We didn't own it and could no longer change it.

# The Review Bureaucracy <sup>2</sup>

Grew and mutated:

- included marketing, service, quality assurance, finance, forecasting, others
- major development task
- less time for creative work

# The Submarine *Scorpion* 1

May 1968, *Scorpion*  
was lost at sea.

Navy knew last  
reported location.

Vague idea of

- heading
- speed
- problem

Loaded with nuclear-tipped missiles and secret gear.

## The Submarine *Scorpion* <sup>2</sup>

Group of specialists:

- submariners, mathematicians
- submarine specialists, salvage experts
- others

Mathematical model

Model parameters:

- when the sub ran into trouble
- how fast it was going
- its heading
- its rate of descent when sinking
- etc.

# The Submarine Scorpion <sub>3</sub>

500 square miles of deep ocean.

Where to start?

# The Submarine *Scorpion* 4

Specialists made judgments; model run.

Navy salvage vessel found wreckage 220 yards away.

# The Power of Teams

Groups can do incredible things

Must have

- proper mix of talents
- requisite skills
- proper motivation

The challenge:

Harness potential creativity  
of teams

# Star Wars

Large organizations need bureaucracies, but

- can sap team energy
- inhibit creative work

There is an answer.

It is like The Force.

Requires faith, but it can overcome the Evil Empire.

## Another War Story 1

Peggy was a project manager.

New version of IBM COBOL compiler

Stalled at announcement review:

- marketing wanted added functions
- functions did not make business sense

## Another War Story <sup>2</sup>

New functions would

- add cost
- increase price
- delay delivery

Customers agreed

Key issue: **schedule**

## Another War Story <sup>3</sup>

The team was committed.

Complete and thorough plan.

Used data from prior release.

Team would meet the schedule, come hell or high water.

Peggy trusted the team.

## Another War Story 4

I suggested Peggy do four things:

1. Write a crisp summary of her position and planned action.
2. Send it to her managers and their managers.
3. Tell the review team she would proceed without their approval.
4. Deliver the product on schedule

## Another War Story 5

Bureaucracy is designed to efficiently handle routine.

Occasionally must do the unusual.

If you are right, you can buck the bureaucracy.

If you are wrong, you will get into trouble.

Peggy gambled and won. Later made a director.

# The Bureaucracy

Bureaucracy is inevitable.

Required to handle enormous volume of routine work.

As developers we must occasionally have exceptions.

To do so quickly and efficiently, we must learn to use the power of teamwork.

# The Force

Using the power of teams.

## Five rules:

1. Have a skilled, motivated team.
2. The system is the evil, not the people. Don't get personal.
3. Have a rock solid story: history, data, courage of your convictions.
4. Keep management informed.
5. Trust your team.

**May The Force be with you.**
